EDUCATION

Diploma in Front-End Development – Route Academy.

Jan 2025 - July 2025

Completed an intensive program involving real-world projects, collaborative team tasks, and practical development workflows.

Faculty of Engineering, Benha University.

Oct 2009 - July 2014

B.Sc. in Electrical Measurements and Control.

EXPERIENCE

Web Master Company (Remote –Eg)

Aug 2025 – Present

- Currently undergoing a 3-month intensive, hands-on training program focused on developing responsive, user-friendly web applications.
- Working on real-world projects utilizing modern web technologies and frameworks to build practical, industry-ready skills.

TA at Electrical Engineering, Benha University

Nov 2019 – May 2022

- Assisted in delivering lectures and supervising lab sessions for undergraduate students.
- Supported academic research and course material preparation.

PROJECTS

E-Commerce Website - React.js, Tailwind, Redux

[Demo](#) [GitHub](#)

- Designed and developed a fully responsive e-commerce web application featuring dynamic product listing, interactive shopping cart, and secure checkout functionality, ensuring a seamless purchasing experience across devices.
- Implemented robust state management using Redux to maintain consistent data flow and optimize performance, while crafting a modern, user-friendly interface with Tailwind CSS to deliver engaging and intuitive user experience.

Yummy Recipes App - HTML5, CSS3, JavaScript ES6, TheMealDB API

[Demo](#) [GitHub](#)

- Built an interactive recipe search platform that allows users to explore meals by category, area, or ingredients, providing detailed cooking instructions, comprehensive ingredient lists, and embedded videos for engaging culinary experience.

Weather App - HTML5, CSS3, JavaScript ES6, OpenWeatherMap API

[Demo](#) [GitHub](#)

- Developed a web application displaying current weather and forecasts by integrating the OpenWeatherMap API for live updates

TECHNICAL SKILLS

HTML | CSS | SASS/SCSS | Bootstrap | Tailwind CSS | JavaScript (ES6+) | TypeScript | React.js | Next.js | Redux | Context API | React Query | Axios | REST APIs | JSON | Git | GitHub | Vite | Webpack | Responsive Web Design | Cross-Browser Compatibility | Figma (UI to Code)
